

GED . . . Look At Me Now!

Kelly Eitel, Isanti
GED Graduate, May 2009

"I had tried many times to finish my GED. Then I found out I could prepare online from home."

"I have three kids and a job. I couldn't add one more thing to my schedule. This way I could work on it whenever I wanted to. Plus, I got immediate feedback from the teacher on the other end. Now I'm studying to be a paralegal."

"My advice? Anybody who can do FaceBook can do it. Give it a try!"

A GED diploma is your stepping-stone toward college, a better career, and family-sustaining wages. After December 2013 the new test will be more difficult, more costly, and computer-based. There's even more good reason to do it now!
