

The GED Test is changing...

Are YOU ready?

THE NEW GED TEST BEGINS JANUARY 2014

The new 2014 Series—including the essay questions—will be taken entirely on computers at an official GED testing center. The current 2002 GED Series written exam will end in December 2013.

If you have not completed the GED 2002 Series on or before **December 18, 2013**, you will have to start over when the new test goes into effect January 2014. Your old scores from 2002-2013 will no longer be valid. There will be no refunds and you will have to pay again for the new 2014 Series.

We encourage you to finish the current 2002 Series as soon as possible. There will be no new registrations for the 2002 Series after Wednesday, November 27, 2013.
